The screenshot displays the Gantt project software interface. On the left, a task list is visible with columns for Name, Begin date, and End date. The task 'add css' is selected. In the center, a 'Properties for add css' dialog box is open, showing the 'Resources' tab. This tab contains a table with columns: ID, Resource Name, Unit, Coordinator, and Role. Two resources are listed: 'smith' (ID 1, Unit 60.0, Coordinator checked, Role project manager) and 'plyush' (ID 0, Unit 100.0, Coordinator checked, Role developer). To the right of the table, under 'Task cost', the 'Calculated' value is 250.0. At the bottom of the dialog are 'Ok' and 'Cancel' buttons. On the far right, a Gantt chart is partially visible, showing a timeline from June to July.
